CITRUS RESEARCH BOARD

REQUEST FOR PROPOSALS (RFP)

Basis for Request for Proposals

The California Citrus Research Board, hereinafter referred to as "CRB", is organized under the authorities of the California Marketing Act, referred to here as the "Act" (Chapter 1 of Part 2, Division 21 of the California Food and Agricultural Code). The CRB has been in existence since 1968, and the specific authorities governing its activities are contained in the grower-approved California Citrus Research Program (the "Order"). During the existence of the CRB, it has utilized assessments provided by California citrus growers to fund production research, variety development, quality assurance, clonal protection, public education and interaction. The CRB also receives federal grant monies to fund research projects.

As a service to the Growers and the industry, the CRB produces a quarterly publication known as *Citrograph Magazine*, which serves as an industry-wide demonstration of the research that the grower assessments fund. In order to produce a quality product, the CRB needs a qualified Production Company to assist with the production and publishing process.

8. Develop, coordinate and implement a marketing plan for magazine advertising sales;
9. Sell all advertising;

10. Handle all publication accounting; which includes billing, invoicing and collection from advertisers. As well as, payment to all vendors for printing and production of the publication;
11. Provide open lines of communication with CRB on all aspects of the magazine project, which would include, a pre-magazine planning meeting, editorial and magazine pre-press proofing meeting and post publication review meeting;
